

SMSLA

SMS LABS SERVICES PRIVATE LIMITED

To Whomsoever it may concern

We have tested your feed and milk repeatedly for pesticides tests. We were pleased to note that in not a single test we found any trace of pesticides.

We in last 2 years have tested many samples of feed and milk and have never got so good and consistent results. We are happy to test such Organic feed and Organic Milk and appreciate efforts put in by your company to achieve such bench mark.

We wish you all the best in your endeavor.

For SMS LABS SERVICES PRIVATE LIMITED
